Crossed-box circles: explicit requests only

The first cell repeats the user's exact options. Bare Proca lines add no circles.

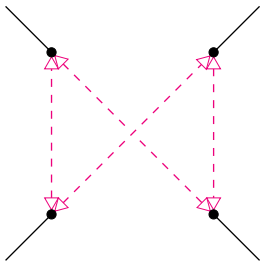

User example: circ scale 0.6

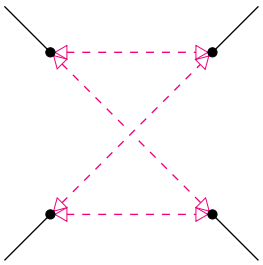

Same example: circ scale 1.0

Bare Proca: left/right fixed

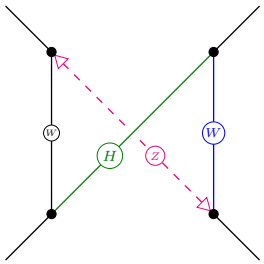

Bare Proca: top/bottom fixed

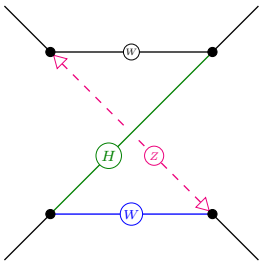

Independent line-local circle styling

Slots retain their own circle scale and color across layouts and calls.

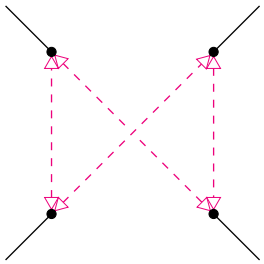

Mixed sizes/colors: left/right

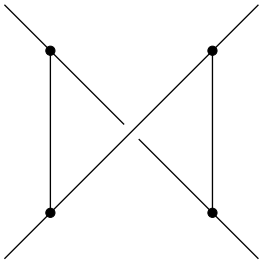

Mixed sizes/colors: top/bottom

Explicit hiding still works

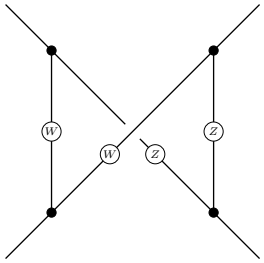

Fresh call: no leaked circles

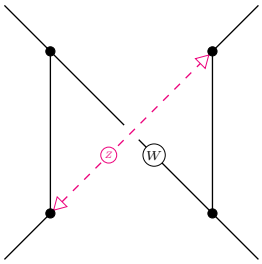

Explicit circles on split and continuous lines

Existing manual labels and circle aliases remain supported. Rings stay solid.

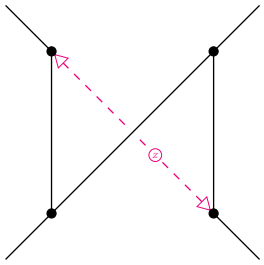

Manual circle labels; common scale 0.6

Per-line circle aliases

Split Proca: one circle, two tips

Ring and label style overrides
