Unequal lengths and mixed propagator styles

Logical external and internal momentum slots retain their identity.

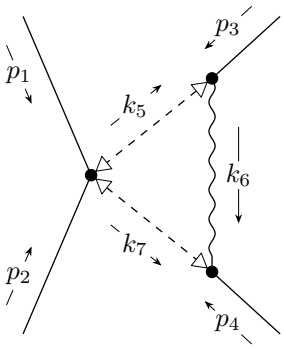

Bottom, tall

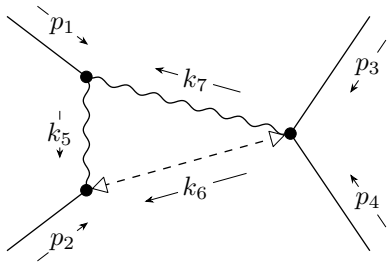

Top, wide

Left, tall

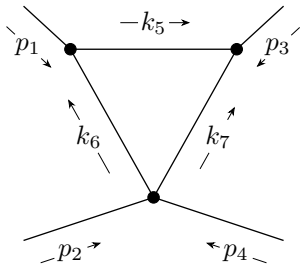

Right, wide

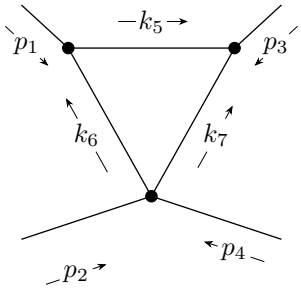

Independent controls, external slots 1–4

Each example changes only the named annotation. Compare with the baseline page.

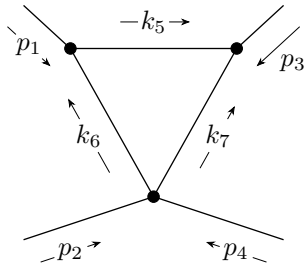

Slot 1: range and label fraction

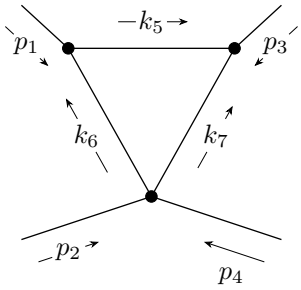

Slot 2: arrow clearance

Slot 3: label only

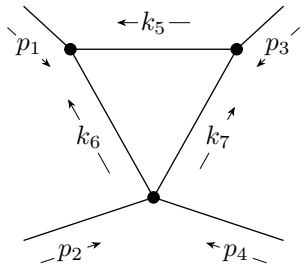

Slot 4: anchor and label shift

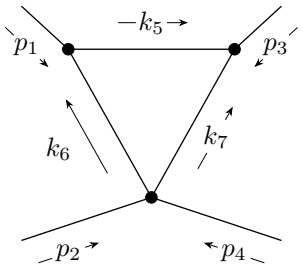

Independent controls, internal slots 5–7

Arrow reversal keeps the same slot, label position, and outside-facing side.

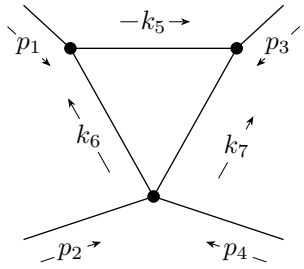

Slot 5: reversed gap arrow

Slot 6: independent label

Slot 7: arrow clearance
